### A. Action taken report against Students' Feedback

The Internal Quality Assurance Cell (IQAC) of Government General Degree College at Keshiary plays a crucial role in assessing students' perspectives on their overall college experience through systematic feedback collection. Following a thorough analysis of student feedback surveys, the college has identified specific areas for improvement based on students' perceptions. The feedback analysis report has been disseminated among teaching faculties who have provided valuable input to address the identified issues.

Key concerns highlighted by students include the need for additional faculty in the English, History, Bengali, and Political Science departments, improved classroom facilities, well-maintained toilets, campus cleanliness, and inadequacies in sports facilities.

In response to these concerns, suggestions from students have been analyzed and compiled into a report. Following our established protocol, requisitions have been submitted to higher officials and the Public Works Department (PWD) office for necessary actions.

Initiatives undertaken include:

1. Correspondence has been initiated with the Higher Education Department to request additional teaching staff for various departments, as well as non-teaching staff and a librarian.
2. Requests have been formally submitted to the Public Works Department (PWD) office for enhancing cleanliness across the college campus and for constructing a new building for the Science department.
3. A formal communication has been forwarded through appropriate channels to higher officials regarding the absence of a dedicated playground at the college.

### B. Action taken report against Alumni Feedback

Based on alumni feedback, overall satisfaction was expressed across all areas, while highlighting key improvement suggestions. Specifically, alumni emphasized the need for adequate teaching faculties in the various departments. Additionally, they underscored the necessity for enhancements to the library facilities and the provision of playgrounds. Moreover, they stressed improvements in campus cleanliness and well-maintained washroom.

Following initiatives have been taken:

1. Correspondence has been initiated with the Higher Education Department to request additional teaching staff for various departments, as well as non-teaching staff and a librarian.
2. Requests have been formally submitted to the Public Works Department (PWD) office for enhancing cleanliness across the college campus and for constructing a new building for the Science department.
3. A formal communication has been forwarded through appropriate channels to higher officials regarding the absence of a dedicated playground at the college.

### C. Action taken report against Teachers Feedback

On the teachers' component of feedback, majority of the teacher expressed overall satisfaction on the curriculum and administrative aspects. From the responses, three main points emerge: The majority of respondents feel that the syllabus lacks balance between accommodating slow and fast learners. There is a demand for an increase in the number of journals and books available in the library. There is inadequate funding to purchase consumables essential for effective teaching and learning. Most importantly, most of the departments are suffering from lack of adequate teachers as numbers of teachers are insufficient to cope up with the bulk of huge syllabus.

Following initiatives have been taken:

1. Correspondence has been initiated with the Higher Education Department to request additional teaching staff for various departments.
2. Requisition has been sent to the vender to purchase books for the library.

### D. Action taken report against Non-teaching Staff Feedback

The non-teaching staff expressed satisfaction with all the questions. However, with only four permanent non-teaching staff and three casual staff currently at the college, they have asked for more non-teaching staff due to the heavy workload.

Formal communication has been done to HED asking for more non-teaching staff in the college for smooth running of official work.

**Subject:** Request for developing of a play ground and a basket ball ground within the campus of Government General Degree College, Keshiary

Sir,

I would like to intimate you that Government General Degree College, Keshiary was established in 2015 at P.O. Tilaboni Mahisamura, P.S. Keshiary, District Paschim Medinipur, West Bengal in a five acre campus and the college is affiliated to Vidyasagar University and recognized under section 2(f) of UGC Act, 1956. The current student strength of the college is around 850 (approximate). The students are mostly first generation learners representing economically challenged background and SC, ST, OBC and minority community of the society.

The students of the college are doing well in their academic pursuit and many of them have unrest interest in games and sports activities. There has been a popular demand for college's own play ground from the forum of the students for sports and athletics although the college do not have any such facility within its campus. Recently the matter has been escalated to the level of the Office of the Honourable Chief Minister, Government of West Bengal.

In this scenario, as per discussion with Department of Higher Education, I put forward a request before your good office for developing a football ground and a basket ball/volley ball ground within the college premises of GGDC, Keshiary with the aid of any suitable scheme under your disposal. In this regard I am attaching necessary document (Annexure 1-8) for your kind perusal and necessary action.

Thanking you in anticipation of kind consideration and sharp response.
